

Advance-Nilfisk Part

Advance-Nilfisk Part - Imagine how long and tiresome it would really be to clean-up after a party, without assistance from equipment. Previously, the dust from upholstery and carpets had to be beat out of them manually; cleaning cloths, brooms, and brushes were the top cleaning products during that time.

The man who founded Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After starting his business in 1906, he started to produce motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's vision from the start was to own an international company marketing products worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner that can be operated by a single person since it just weighed 17.5 kilos! This invention came in a time where many cleaning equipment were massive and needed at least 4 operators, hence, the Nilfisk C1 changed everything and developed the manner we clean forever. The mastermind behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an existing dilemma; things get filthy and need to be cleaned on a regular basis, without too much effort.

Gradually but progressively, Nilfisk-Advance grew through the years. During the nineteen eighties, this growth truly occurred when the company became a part of the NKT Group. Their new owners' ambition and focus made Nilfisk-Advance take a huge leap forward within the industry, aspiring to be one of the biggest global players in the market of professional cleaning equipment. Nilfisk-Advance is currently represented in all parts of the world due to gradually obtaining lots of smaller companies to be able to develop their product selection and presence in new markets. They are really proud to offer different cleaning solutions to meet each requirement.
