

Spreader Bar for Forklifts

Spreader Bar for Forklift - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader manufacturer all over the world. They have been a dedicated maker of spreaders for various applications like for example the handling of containers, swap bodies and trailers.

ELME currently has more than a hundred and twenty five staff with all engineering is done in-house by means of utilizing all the most up-to-date CAD systems and FEM tools. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-over the globe.

The ELME product series offers spreaders intended for various container and trailer handling operations. Some of their inventory consist of: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders plus a huge variety of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by way of making use of high quality elements so as to ensure dependability and excellent standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market feedback and ground-breaking modular spreader concept.
