

## Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a one hundred year custom of service and quality. They focus on various modules, integrated systems and parts to original machine manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only employing future focused workers. These top-caliber people could quickly get used to to changing environments and freely demonstrate the level of commitment and performance considered necessary to be able to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all of their employees various chances for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering staff.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located all over the globe in 19 nations and in 5 different continents.

The supplier development network is specially located in order to support new business development. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
