

Clark Forklift Parts

Clark Forklift Parts - Currently, there are no less than 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 particular components built for 20 exclusive brands of forklifts and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark's continual mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the globally accepted quality standard ISO 9001 for each and every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this method is extremely economical and permits minimal use of resources. Developed to ensure maximum efficiency, this system is designed to discover and acknowledge the most effective ways for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their merchandise while minimizing expenses. The new value engineering program combines modern product growth and delivers superior customer support and service within the industry.
